What's new:

First of all, this show had drama from the minute it started. Poor Jaime. I wouldn't want to be in his position, and it must be sooooo hard being taken for granted that you still have this childish crush on your master. It's a tremendous joy to see him blossom in his interactions with his family and in his growing relationship with Jaime. Maybe I'm just not ready to think of S1 characters as adults with real feelings for each other lol :) And the entire episode centered on Jaime helping Shui since he's acting the fool?! It was sweet of him, but by the end of the episode, I wanted some closure. And it's just too bad the youngest members were left out of everything. Pretty much, they were forgotten about like forever. I was so excited about seeing Sora again and she's probably gonna be in it! Again, so unfortunate she wasn't in the OP. The "ring-choice" was interesting since it was with an adopted kid. I'd love to hear her perspective since she has a lot of experience with adoptees but it was a cute scene nonetheless, full of tension. More like this and more! ya this s1 had so much drama. But what I didn't like was in episode 12 and 13 drama was set aside and I was like ok now what?! And people said to just settle it and in the end we saw they too don't know what to do. I was sad and frustrated. I love this show. I loved the fact that they have such great acting, but they can't focus on the fact that they also have to have a happy ending. Can't we just see that they are happy? Not in the same way I want cuz' I still want this drama to go on even with their circle too. :(I agree with you that it was okay to have a happy ending even though the drama had come to a close. But probably because of the series, the writers were able to portray the happy ending with sincerity. Jaime's implements weren't as felt as in the previous episodes. His theories, and his realization of the Yu elders were really appreciated. We know and saw how he sees them on a different level. That was the cause of all of the problem. He was able to do a lot with what he learned about Shui compared to what he had learned in the past. The fact that he was able to work this into what he had previously told Yu was a
