****STUDENT ASSIGNMENT:** Looking for a Great Introduction to Photoshop? Take a gander at Chapter 11. **** ## Adobe Illustrator** Illustrator is also part of the Adobe Creative Suite, but it's generally considered to be a vector graphics program. Unlike raster graphics, vector graphics are made up of geometric shapes that don't have pixel-like resolution. The more basic Illustrator is the vector graphics tool that many creative people employ to design and illustrate their work. Besides being a vector graphics tool, Illustrator has some very powerful features. You can create and manipulate very sophisticated shapes and paths. **** Adobe Fireworks** Fireworks is another application included in the Creative Suite. It is a raster graphics program that is used to create web graphics. Fireworks is similar to Photoshop in appearance because it includes many of the same tools for image manipulation. **# ABOUT THE AUTHOR** ****Stacy Sorensen**** is a successful business owner and a prolific designer and author. Stacy publishes instructional books on Adobe Design Suite, business, and graphic design and writes monthly design columns for national magazines. Stacy has worked with companies such as Sun Microsystems, the Macintosh Corporation, and Lotus Development Corp. **# **INTRODUCTION**** Welcome to the third edition of *_Adobe Photoshop CS6 for Dummies_*, which was written by me, Stacy Sorensen. I know it may seem like an unusual combination, but after working with Photoshop CS6 from the beginning, I've learned many things that are new, useful, and even surprising. In this book, you'll discover many features that you will use. I also cover the product setup process for the software, which includes signing up for Photoshop, Creative Suite, and Adobe Exchange. In Part I, I help you get used to the new features in Photoshop CS6, with an emphasis on the feature that's most important to you: auto-aligning your images and layers. In Part II, you'll learn how to use many of the new and updated tools, such as the Content-Aware Move tool and the Content-Aware Fill tool. I also review the new drawing tools, such as the Crop and Rotate tools and the Pen tool. In Part III, I help you create masterpieces with the creative painting tools and the advanced color tools. I also cover image preparation and adjusting, including

Q: How to deploy an application to a docker container in Azure data factory in linux server? I am working on a cli application that is deployed in a docker container in Azure. I am trying to use Azure data factory to pull the image and execute my cli application as an Azure function. When I specify a command to execute using the Azure web portal, it works fine. data factory pipeline But when I use the same command in the cli application, it throws the error Error: getaddrinfo ENOTFOUND Could not resolve host: myhost:5050 Any help would be appreciated. PS: the AzureDataFactoryPipeline.json file below works fine if I run the cli command on a Windows machine. { "\$schema": "", "contentVersion": "1.0.0.0", "parameters": { "cli_command": { "type": "string", "metadata": { "description": "The CLI command to run." } } }, "variables": {}, "resources": [], "outputs": {} } A: For Linux, you can do it using appcmd.exe, e.g. use appcmd.exe /config /applicationpool:DefaultAppPool restart command to restart apppool. For more details, you can refer to this article Deploying a managed.NET application in Azure App Service New York is “in the lead,” and helps to lead the way. Other big cities are looking at enacting the New York law. The mayor of Los Angeles is starting to bring in more money and officers to fight crime in high-crime neighborhoods like Highland Park. And, more women are moving into police force after seeing the success of the New York program. They are working in the field. Los Angeles, as a city and as a country, has much work to do on the racial injustice front. We have work to do on our biases, including implicit biases. The problem is that police are not
